

CHARGING CARTS

12 TABLET/CHROMEBOOK WALL/DESKTOP CHARGING BOX

LLTMWV12-G

Luxor's bestselling wall/desktop charging station, the LLTMWV12-G, is now even better! With a larger interior space, this charging station is compatible with both tablets and Chromebooks making it the ideal choice for users who require secure storage without compromising floor space. The LLTMWV12-G design allows ample room for power bricks while its removable power brick holders with hook and loop fasteners facilitate superior cable management. This fully assembled unit features a padded interior with coated dividers to keep devices organized and protected. For additional protection, two ventilated sides allow constant airflow to eliminate overheating when charging 12 devices simultaneously, even when the front door is closed and locked for safe keeping. Whether your charging station is best suited resting on a desktop, or mounted on a wall, keep your devices charged, stored, and secure with the LLTMWV12-G from Luxor.
